## Company History

Headquartered in Findlay, Ohio, Pukka combines our overseas proprietary production process with first-class customer service, industry leading product development and creative design capabilities to deliver complete custom headwear solutions at the lowest minimums.

We have been a core supplier of custom headwear and other accessory products to specialty retail brands since 1992. Beyond traditional large volume production, we recognized that small retailers and brands alike continually have a need and demand for total customization capability in low minimum orders. With that in mind, in 2003 we built and launched our unique business-to-business supply chain solution and began fulfilling the need in the golf market. Today we are deeply rooted as a primary vendor in many of the nation's top facilities.

## We Set The Standard

Pukka's 100% Custom Headwear Program was born out of an understanding that independent shops and small brands deserve access to the same custom manufacturing quality and design capabilities traditionally available to only large brands. Our unique supply chain solution includes a production process where the components of every hat are assembled and fully personalized as one process on one production line.

The markets we serve today are endless as we continue to grow our business and share our Be Original mentality. Whoever has a desire to design their own customized headwear at the lowest minimums offered in the industry, can utilize our unique business model as the solution. We call it Pukka. It's more than just a name! Pukka by definition is: "original, first class, quality," and this meaning embodies every hat that we produce. If you've ever worn Pukka, you know the feeling of headwear perfection. Be Original®.

Further distinction includes FREE Artwork Set-Up, FREE Digitizing, Unparalleled Embroidery Quality & Graphic Capabilities and Minimums as-low-as 48 per Style (12 per Color and Fabric) combinations.

We've been setting the standard on highest customization at the lowest minimums for over a decade. Setting the standard is our standard.
